

Gatling - Installation & Setup

Gatling: concept, Quality Engineering use, first steps and official reference.

Goal of this manual

This manual guides you through the complete installation and configuration process, from preparing the environment to final validation. Follow the steps in order and use each verification checkpoint to confirm that the setup was completed correctly.

Before you start

Confirm the supported operating system, runtime/dependencies and version requirements in the current official documentation before installing. The technical checklist below mirrors the validated tool-specific procedure.

Where to run commands

On Windows use PowerShell or Command Prompt; on macOS/Linux use Terminal. After changing PATH or environment variables, close and reopen the terminal before validating again.

5. Follow this tool-specific step: Abra o relatório HTML gerado e confirme requests/estatísticas.

Commands and validation

```
java -version
```

First working use

Complete the first working use described in the steps above and confirm the expected tool-specific result before adding integrations or advanced configuration.

Common problems and fixes

Java/build tool incompatível: alinhe versões com a documentação atual.

Não misture comandos de distribuições antigas com a estrutura atual.

Carga não deve ser apontada para produção sem autorização.

Completion criteria

Treat setup as complete when the version/execution checks work and the first use in this manual finishes without errors. Only then move to integrations or advanced configuration.
