

Detox

Gray-box end-to-end testing framework for React Native apps.

What is it?

Detox is a technology/platform relevant to Quality Engineering and test automation.

When to use

Use it when the product and team context justify this type of automation or infrastructure.

Installation and setup

Siga o guia oficial de Getting Started, configure o runner e prepare Android/iOS conforme o ambiente.

First use

Validate prerequisites, credentials/devices and run a small scenario before scaling.

Best practices

Keep configuration versioned and troubleshooting documented.

When to use it

Use this knowledge when product risk, architecture or the delivery stage requires this type of validation. Confirm the goal, environment, required data and expected evidence before starting.

QA tip

■ QA Tip: start with a small flow in Detox before scaling coverage.
